## PROFESSIONAL SUMMARY

---

Electronics and Communication Engineering undergraduate at **NIT Jalandhar** with hands-on experience in **Python, Machine Learning, Embedded Systems, IoT, and Computer Vision**. Proficient in developing software solutions and solving real-world engineering problems through projects involving **LoRa-based communication, facial recognition, and machine learning**. Seeking opportunities in **Software Development, Embedded Systems, or AI/ML**.

## EDUCATION

---

**National Institute of Technology Jalandhar**

*B.Tech. in Electronics and Communication Engineering* — **CGPA: 7.39/10**

**2023 – Present**

*Jalandhar, Punjab*

## SKILLS

---

**Programming:** Python, C, MATLAB, SQL

**Embedded:** Arduino IDE, Verilog, LoRa, Tinkercad

**Libraries:** OpenCV, NumPy

**Concepts:** Data Structures & Algorithms, Machine Learning, Signal Processing

**Tools:** GitHub, VS Code

## PROJECTS

---

### Attendance System via Facial Recognition

- Developed a real-time facial recognition attendance system using Python and OpenCV.
- Automated attendance logging by identifying users and storing records in a CSV database.   [Project Link](#)

### LoRa-Based Multi-Node Communication System

- Developed a low-power wireless communication system enabling reliable data exchange between multiple LoRa nodes. Implemented embedded programming for long-range communication and validated network performance..

### House Price Prediction using Machine Learning

- Built a machine learning model using Python, Pandas, and Scikit-learn to predict house prices.
- Performed data preprocessing, feature engineering, and trained a Linear Regression model.
- Evaluated performance using MAE, RMSE, and  $R^2$  Score..   [Project Link](#)

## Extra Curricular

---

- Core Member of SoECE club.
- Member of Raj bhasha Club.

## ACHIEVEMENTS

---

- Managed the event Maifill as an active member of the Rajbhasha Club..
- Managed CircuitSaga as Event Member
